

Krishnamargam - Product Requirements Document

Version: 1.0
Date: May 2026
Prepared for: Claude Code Development
Maintained by: BabyStepsIndia.in

1. Product Overview

Krishnamargam is a bilingual (Telugu + English) online spiritual learning platform. It is structured around **Learning Paths** — each path is a distinct curriculum stream focused on a particular spiritual tradition.

1.1 Learning Paths

Path	Status	Focus
RAAS	Active (v1)	Vedic & Hindu spiritual education
DAAS	Planned (v2)	To be defined

All courses in v1 belong to the **RAAS** path. The platform architecture must support multiple paths from day one so DAAS can be added without a redesign.

1.2 Branding Hierarchy

- **Krishnamargam** — main platform brand (shown in navbar, footer, browser tab)
- **RAAS** — learning path label (shown on course cards, explore page, path selector)
- **DAAS** — future path (placeholder card shown on home page in v1)

1.3 Vision

Make ancient Vedic wisdom and spiritual knowledge accessible to Telugu-speaking communities worldwide through affordable, high-quality online courses.

1.4 Scale Targets

- Max users in Year 1: **5,000 registered users**
- Max daily active users: **20**
- Designed for minimal infrastructure cost

2. Tech Stack

Layer	Technology	Tier
Frontend + Backend	Next.js 14 (App Router)	—
Database + Auth	Supabase	Free tier
Video Hosting	YouTube (unlisted/public)	Free
Payment	Razorpay	Pay per transaction (2%)
Email	Resend	Free tier (3,000 emails/month)
Deployment	Vercel	Free tier
Language	TypeScript	—
Styling	Tailwind CSS	—

2.1 Key Constraints

- No dedicated video server — all videos embedded via YouTube iframes
 - No custom media storage — course thumbnails use emoji + color backgrounds as in prototype
 - Supabase handles authentication, database, and row-level security
 - All payments go through Razorpay UPI; manual enrollment confirmation for payments received after 11 PM IST
-

3. Design Reference

A fully working HTML prototype exists covering all screens. Claude Code must replicate the following design system exactly:

3.1 Colour Palette

- Background:  #1a0f00
- Card background:  #120a00
- Primary accent (gold):  #f0b429

- Secondary text: #c8973a
- Muted text: #a07030
- Border: #3a2800
- Success green: #5dca85
- Error red: #c0392b

3.2 Typography

- Font: Segoe UI, sans-serif
- Headings: gold (#f0b429), bold
- Body: #f5e6c8

3.3 Brand

- Platform name: **Krishnamargam**
- Tagline EN: *Your Spiritual Journey*
- Tagline TE: మీ ఆధ్యాత్మిక మార్గం
- Active path: **RAAS** (Vedic learning)
- Future path: **DAAS** (coming soon)
- Symbol: ౐ (used throughout UI)
- Footer: © 2026 Krishnamargam - Developed and maintained by BabyStepsIndia.in

4. Pages & Routes

Route	Page	Auth Required
/	Home	No
/explore	Explore Courses	No
/course/[slug]	Course Detail	No
/watch/[slug]	Video Player / Watch	Yes
/my-courses	My Enrolled Courses	Yes
/login	Sign In	No
/register	Register	No

Route	Page	Auth Required
<code>/forgot-password</code>	Forgot Password	No
<code>/payment/[courseId]</code>	UPI Payment Page	Yes
<code>/payment/confirm</code>	Payment Confirmation	Yes
<code>/admin</code>	Admin Dashboard	Admin only

5. Pages - Detailed Requirements

5.1 Home Page (`/`)

Layout: Sticky navbar + Hero + Learning Paths selector + Stats bar + 2-column main (65% courses / 35% testimonials)

Navbar:

- Left:  logo + **Krishnamargam** wordmark + tagline
- Right: Language toggle (EN / ) + Explore link + Sign In button
- When logged in: replace Sign In with avatar + first name + My Courses link + Sign Out button

Hero Section:

- Background: dark saffron gradient with large faint  watermark
- Platform name: Krishnamargam
- Bilingual tagline (switches with language toggle)
- Search bar (UI only in v1, full search in v2)

Learning Paths Section (below hero, above stats):

- Heading: "Choose Your Path"
- Two path cards side by side:
 - **RAAS** — active, gold border, clickable → filters courses to RAAS path
 - **DAAS** — coming soon, muted, greyed out badge, not clickable
- Each card: path name, short description, course count (RAAS: 12 courses, DAAS: Coming Soon)

Stats Bar: Students Enrolled · Courses Available · Average Rating · Languages

Course Grid (left 65%):

- Heading: "Featured Courses"
- Show top 6 courses sorted by student count
- Each tile: emoji thumbnail, badge (Free/Popular/New), bilingual title, instructor name, star rating, review count, duration, price, student count

Testimonials Panel (right 35%):

- Heading: "Student Voices"
- Sticky while user scrolls courses
- Scrollable list of testimonial cards: avatar initials, name, course, 5-star rating, quote, date

Language Toggle behaviour:

- Switches all UI labels, nav text, stats labels, section headings, instructor names, and testimonial content between English and Telugu
 - Course titles always show both languages (English title + Telugu subtitle)
-

5.2 Explore Page (/explore)

Filter Bar:

- View toggle: By Category | By Level
- Sort dropdown: Most Popular / Newest / Price: Low to High / Price: High to Low / Highest Rated
- Course count label (e.g. "12 courses")

By Category View:

- Section per category with icon, category name, course count
- Categories: Bhagavad Gita, Mantras, Upanishads, Puja & Rituals, Yoga & Philosophy, Ramayana, Puranas, Devotional Music, Sanskrit, Jyotisha, Vastu

By Level View:

- Section per level: Beginner 🌱 / Intermediate 🌿 / Advanced 🌳

Course Tile (same as home, all 12 courses shown):

5.3 Course Detail (Side Panel Overlay)

Slides in from the right over the current page (does not navigate away).

Contents:

- Large emoji banner with course background colour
- Close (X) button
- Badge row: Free/Popular/New + Level badge (colour coded)
- Bilingual title
- Meta row: rating, review count, student count, duration
- Instructor card: avatar, name, "Course Instructor" label
- Full description
- "What you'll learn" curriculum list (6 items with ✓ icons)
- Sticky footer: price + Enroll button

Enroll Button behaviour:

- Free course → instant enroll → show confirmation screen
- Paid course → navigate to `/payment/[courseId]`
- If not logged in → redirect to `/login` with return URL

5.4 My Courses Page (`/my-courses`)

Access: Logged-in users only. Redirect to `/login` if not authenticated.

Header:

- Student avatar (initials), welcome message ("Welcome back, [First Name]!")
- Stats row: Enrolled / In Progress / Completed counts

Course Grid:

- 3-column responsive grid (auto-fill, min 280px)
- Each enrolled course tile shows:
 - Emoji thumbnail with status badge (Not Started / In Progress / Completed)
 - 🏆 trophy icon for completed courses

- Course title + instructor
- Progress label + percentage (e.g. "Progress — 78%")
- Animated progress bar (colour: gold for in-progress, green for complete, dark for not started)
- Duration + action button (Start Learning / Continue Learning / Review Course)
- Clicking the button opens the Course Detail overlay

Empty State:

- Lotus 🍷 icon + "No courses yet" message + "Explore Courses" button
-

5.5 Watch Page (`/watch/[slug]`)

Access: Logged-in + enrolled users only.

Layout: Two-column — video player (left ~70%) + lesson sidebar (right ~30%)

Video Player:

- YouTube iframe embed (responsive, 16:9)
- Course title below player
- Tab bar: Overview | Notes
- Overview tab: course description
- Notes tab: freeform text area for personal notes (saved to Supabase per user per course)

Lesson Sidebar:

- Course title header
- Overall progress bar
- Scrollable list of lessons grouped by section
- Each lesson: play icon, lesson title, duration, completion tick
- Active lesson highlighted in gold
- Clicking a lesson loads that YouTube video in the player and marks previous as complete

Progress Tracking:

- Each lesson completion updates `user_progress` table in Supabase
- Overall course percentage = (completed lessons / total lessons) × 100
- Progress syncs to My Courses page

5.6 Authentication Pages

Sign In (`/login`)

- Email + password fields
- Show/hide password toggle
- "Forgot password?" link (right-aligned next to Password label)
- Sign In button
- Divider + Continue with Google button (Google OAuth via Supabase)
- "New to RAAS? Create an account" link
- Error state: inline red error box "Incorrect email or password"

Test credentials for development:

- Email: `priya@example.com` / Password: `test1234`

Register (`/register`)

- Tab toggle: Sign In | Register
- Fields: Full name, Email, Mobile number (ISD dropdown + number), Password, Confirm password
- Password strength meter (Weak → Fair → Good → Strong)
- Real-time password match indicator
- On submit: create Supabase auth user → send confirmation email via Resend → show success screen
- Success screen: 🌸 icon + "One last step!" + email shown + "What happens next" steps + Resend link
- Mobile number: stored in `profiles` table, used for SMS reminders (v2)
- ISD options: +91 (default), +1, +44, +61, +971, +65

Forgot Password (`/forgot-password`)

- Email input + Send Reset Link button
 - On submit: Supabase `resetPasswordForEmail()` → success screen with email shown
 - Reset link expires in 30 minutes
 - Resend link available
-

5.7 Payment Page (`/payment/[courseId]`)

Access: Logged-in users only.

Contents:

- Course summary row: emoji, title, instructor, price
- UPI QR code (generated via Razorpay)
- UPI ID: `raas@upi` with copy button
- Time-aware note:
 - Before 11 PM IST: *"Pay before 11 PM IST for instant enrollment confirmation."*
 - After 11 PM IST: *"Payments after 11 PM IST are confirmed by 8 AM IST the next morning."*
- "I've Completed Payment" button → triggers payment verification flow
- "Back to Course" link

Payment Confirmation Logic:

- On "I've Completed Payment":
 - Log payment attempt in `payment_logs` table (user, course, amount, timestamp, status: pending)
 - Read current IST time
 - Before 11 PM → show instant confirmation screen (✅)
 - After 11 PM → show pending confirmation screen (⌚)
 - Admin manually verifies UPI payment in Razorpay dashboard and marks enrollment active
 - On admin approval → Supabase trigger updates `enrollments` table → sends confirmation email via Resend
-

5.8 Payment Confirmation Screen

Instant (before 11 PM):

- ✅ icon + "Enrollment Confirmed!" title
- "Payment received for [Course]. You can start learning right now!"
- "Confirmed instantly - Payment received before 11 PM IST. Access is active now."

Pending (after 11 PM):

- ⌚ icon + "Payment Received!" title

- "Thank you for enrolling in [Course]. Your payment has been recorded."
- "Confirmation by 8 AM IST - Your enrollment will be activated by tomorrow morning. We will notify you by email and SMS."

Buttons: [Go to Home](#) | [Explore More Courses](#)

6. Database Schema (Supabase / PostgreSQL)

6.1 Tables

```
sql
```

-- Learning paths (RAAS, DAAS, future)

```
CREATE TABLE paths (  
  id SERIAL PRIMARY KEY,  
  slug TEXT UNIQUE NOT NULL,      -- 'raas', 'daas'  
  name TEXT NOT NULL,            -- 'RAAS', 'DAAS'  
  tagline_en TEXT,  
  tagline_te TEXT,  
  description_en TEXT,  
  description_te TEXT,  
  is_active BOOLEAN DEFAULT FALSE, -- only RAAS is active in v1  
  order_index INTEGER DEFAULT 0,  
  created_at TIMESTAMPTZ DEFAULT NOW()  
);
```

-- User profiles (extends Supabase auth.users)

```
CREATE TABLE profiles (  
  id UUID PRIMARY KEY REFERENCES auth.users(id),  
  full_name TEXT NOT NULL,  
  mobile TEXT,  
  isd_code TEXT DEFAULT '+91',  
  avatar_initials TEXT,  
  created_at TIMESTAMPTZ DEFAULT NOW()  
);
```

-- Courses

```
CREATE TABLE courses (  
  id SERIAL PRIMARY KEY,  
  path_id INTEGER REFERENCES paths(id), -- which learning path this belongs to  
  slug TEXT UNIQUE NOT NULL,  
  title_en TEXT NOT NULL,  
  title_te TEXT NOT NULL,  
  description_en TEXT,  
  description_te TEXT,  
  instructor_en TEXT NOT NULL,  
  instructor_te TEXT NOT NULL,  
  category TEXT NOT NULL,  
  level TEXT CHECK (level IN ('Beginner', 'Intermediate', 'Advanced')),  
  duration TEXT,  
  price INTEGER DEFAULT 0,  
  is_free BOOLEAN DEFAULT FALSE,  
  badge TEXT CHECK (badge IN ('Popular', 'New', 'Free')),  
  rating DECIMAL(2,1) DEFAULT 0,  
  review_count INTEGER DEFAULT 0,
```

```
student_count INTEGER DEFAULT 0,  
emoji TEXT,  
bg_color TEXT,  
is_published BOOLEAN DEFAULT FALSE,  
created_at TIMESTAMPTZ DEFAULT NOW()  
);
```

-- Lessons within courses

```
CREATE TABLE lessons (  
  id SERIAL PRIMARY KEY,  
  course_id INTEGER REFERENCES courses(id) ON DELETE CASCADE,  
  section_title TEXT,  
  title_en TEXT NOT NULL,  
  title_te TEXT,  
  youtube_video_id TEXT NOT NULL,  
  duration TEXT,  
  order_index INTEGER NOT NULL,  
  created_at TIMESTAMPTZ DEFAULT NOW()  
);
```

-- Student enrollments

```
CREATE TABLE enrollments (  
  id SERIAL PRIMARY KEY,  
  user_id UUID REFERENCES profiles(id) ON DELETE CASCADE,

  is_active BOOLEAN DEFAULT FALSE,  
  activated_at TIMESTAMPTZ,  
  UNIQUE(user_id, course_id)  
);
```

-- Lesson completion tracking

```
CREATE TABLE user_progress (  
  id SERIAL PRIMARY KEY,  
  user_id UUID REFERENCES profiles(id) ON DELETE CASCADE,  
  course_id INTEGER REFERENCES courses(id) ON DELETE CASCADE,  
  lesson_id INTEGER REFERENCES lessons(id) ON DELETE CASCADE,  
  completed_at TIMESTAMPTZ DEFAULT NOW(),  
  UNIQUE(user_id, lesson_id)  
);
```

-- Student notes per course

```
CREATE TABLE user_notes (  
  id SERIAL PRIMARY KEY,
```

```

user_id UUID REFERENCES profiles(id) ON DELETE CASCADE,
course_id INTEGER REFERENCES courses(id) ON DELETE CASCADE,
content TEXT,
updated_at TIMESTAMPTZ DEFAULT NOW(),
UNIQUE(user_id, course_id)
);

-- Payment logs
CREATE TABLE payment_logs (
  id SERIAL PRIMARY KEY,
  user_id UUID REFERENCES profiles(id),
  course_id INTEGER REFERENCES courses(id),
  amount INTEGER NOT NULL,
  upi_ref TEXT,
  status TEXT DEFAULT 'pending' CHECK (status IN ('pending','confirmed','failed')),
  submitted_at TIMESTAMPTZ DEFAULT NOW(),
  confirmed_at TIMESTAMPTZ,
  confirmed_by UUID REFERENCES profiles(id)
);

-- Testimonials
CREATE TABLE testimonials (
  id SERIAL PRIMARY KEY,
  user_id UUID REFERENCES profiles(id),
  course_id INTEGER REFERENCES courses(id),
  content_en TEXT NOT NULL,
  content_te TEXT,
  rating INTEGER CHECK (rating BETWEEN 1 AND 5),
  is_published BOOLEAN DEFAULT FALSE,
  created_at TIMESTAMPTZ DEFAULT NOW()
);

```

7. Business Rules

7.1 Payment & Enrollment

- Free courses: enrollment is instant on clicking "Enroll Now - Free" (no payment)
- Paid courses: student initiates payment via UPI and clicks "I've Completed Payment"
- System logs the payment attempt with status pending
- **Before 11 PM IST:** Admin confirms same day → enrollment activated → confirmation email sent

- **After 11 PM IST:** Admin confirms next morning by 8 AM IST → confirmation email sent
- Time check uses `Asia/Kolkata` timezone on the server

7.2 Access Control

- Course listing and detail: public (no login required)
- Video watch page: requires login + active enrollment
- My Courses page: requires login
- If unauthenticated user clicks Enroll: redirect to `/login?returnTo=/payment/[courseId]`
- After login, redirect back to the payment page automatically

7.3 Progress Tracking

- Progress % = (lessons completed / total lessons in course) × 100
- Rounded to nearest integer
- A lesson is marked complete when the user clicks "Next Lesson" or checks it off manually
- Progress is stored per user per lesson in `user_progress`

7.4 Language

- Default language: English
- Language preference stored in `localStorage` and applied on every page load
- All dynamic content (course titles, instructor names, testimonials) has both EN and TE variants in the database
- UI labels use a translation object (see prototype for all strings)

8. API Routes (Next.js)

Method	Route	Description
GET	<code>/api/courses</code>	List all published courses
GET	<code>/api/courses/[slug]</code>	Get single course + lessons
GET	<code>/api/my-courses</code>	Get enrolled courses + progress for logged-in user
POST	<code>/api/enroll/free</code>	Instant enroll for free course

Method	Route	Description
POST	<code>/api/payment/initiate</code>	Log payment attempt, return confirmation
POST	<code>/api/payment/confirm</code>	Admin confirms payment, activates enrollment
GET	<code>/api/progress/[courseId]</code>	Get user progress for a course
POST	<code>/api/progress/[courseId]/lesson/[lessonId]</code>	Mark lesson complete
GET	<code>/api/notes/[courseId]</code>	Get user notes for a course
POST	<code>/api/notes/[courseId]</code>	Save/update user notes

9. Email Flows (via Resend)

Trigger	Template	Recipient
Registration	Email confirmation link	New user
Password reset	Reset link (expires 30 min)	User
Free enrollment	"You're enrolled!" confirmation	User
Payment submitted	"Payment received, pending confirmation"	User
Payment confirmed	"Enrollment activated, start learning!"	User
Payment after 11 PM	"Payment received, confirmed by 8 AM IST"	User

10. Admin Interface (`/admin`)

10.1 Access & Authentication

- Separate login from student login — admin credentials stored in `profiles` table with `is_admin = TRUE`
- Admin login page at `/admin/login` — email + password only (no Google OAuth)

- All `/admin/*` routes protected by middleware — redirect to `/admin/login` if not authenticated as admin
- Admin test credentials for development: `admin@krishnamargam.in` / `admin1234`

10.2 Layout

- Full-width dark sidebar layout (consistent with Krishnamargam dark gold theme)
- Left sidebar (240px): platform logo + nav links
- Main content area: page-specific content
- Sidebar nav items:
 -  Learning Paths
 -  Courses
 -  Enrollments
 -  Sign Out

10.3 Learning Paths Manager (`/admin/paths`)

List View:

- Table of all learning paths: Name, Tagline (EN), Status (Active/Inactive), Course Count, Order, Actions
- Toggle switch per row to activate/deactivate a path instantly
- Add New Path button (top right)
- Drag handle on each row to reorder paths (updates `order_index`)

Add / Edit Path Form (slide-in panel or modal):

- Path name (e.g. RAAS, DAAS) — text, required
- Tagline EN — text, required
- Tagline TE — text, required
- Description EN — textarea
- Description TE — textarea
- Status toggle — Active / Inactive
- Save button + Cancel

Delete Path:

- Confirm dialog: "Are you sure? This will not delete courses in this path."
- Cannot delete a path that has active enrollments

10.4 Course Manager (/admin/courses)

List View:

- Filter bar: filter by Path (All / RAAS / DAAS) + filter by Level + filter by Status
- Table columns: Order (drag handle), Emoji, Title (EN), Path, Category, Level, Price, Status (Published/Draft), Actions (Edit, Delete)
- Drag and drop rows to reorder — updates `order_index` on the course
- Add New Course button (top right)
- Row count shown (e.g. "12 courses")

Add / Edit Course Form (full page or large slide-in panel):

Section 1 — Basic Info:

- Emoji picker (text input, e.g. 📖)
- Background colour (hex colour picker, default `#1a0a00`)
- Title EN — required
- Title TE — required
- Path — dropdown (RAAS / DAAS / ...)
- Category — dropdown (Bhagavad Gita / Mantras / Upanishads / Puja & Rituals / Yoga & Philosophy / Ramayana / Puranas / Devotional Music / Sanskrit / Jyotisha / Vastu / Other)
- Level — dropdown (Beginner / Intermediate / Advanced)
- Badge — dropdown (Popular / New / Free)
- Status — toggle (Draft / Published)

Section 2 — Instructor:

- Instructor name EN — required
- Instructor name TE — required

Section 3 — Pricing:

- Is Free — toggle
- Price (₹) — number input, disabled if Is Free is on

Section 4 — Course Details:

- Duration (e.g. 18h) — text
- Description EN — rich textarea
- Description TE — rich textarea

Section 5 — Curriculum:

- Dynamic list of curriculum items (add / remove / reorder)
- Each item: text input for lesson title
- "Add Item" button appends a new row
- Drag handle to reorder items within curriculum

Section 6 — Stats (for seeded/existing courses):

- Student count — number
- Review count — number
- Rating — decimal (0.0 to 5.0)

Save as Draft | Publish | Cancel buttons

Delete Course:

- Confirm dialog: "Are you sure? Enrolled students will lose access."
- Soft delete preferred — set `is_deleted = TRUE` rather than hard delete

10.5 Enrollment Manager (`/admin/enrollments`)

List View:

- Table: Student Name, Email, Course, Amount, Submitted At, Status (Pending / Confirmed / Failed)
- Filter: All / Pending / Confirmed / Failed
- Sorted by: newest first
- Count badge on sidebar nav showing pending count (e.g. "Enrollments 3")

Actions per row:

- **Confirm** (green button) — sets `status = confirmed`, sets `activated_at = NOW()`, triggers confirmation email via Resend, activates enrollment in `enrollments` table
- **Reject** (red button) — sets `status = failed`, triggers rejection email
- **View Details** — expands row: student mobile, UPI reference, course details, timestamps

Business Rule reminder visible in UI:

- Banner at top of page: *"Payments received before 11 PM IST are confirmed same day. After 11 PM IST, confirm by 8 AM IST the next morning."*

11. Seed Data

11.1 Learning Paths

```
sql

INSERT INTO paths (slug, name, tagline_en, tagline_te, is_active, order_index)
VALUES
  ('raas', 'RAAS', 'Vedic & Spiritual Learning', 'వేద మరియు ఆధ్యాత్మిక అభ్యాసం', TRUE, 1),
  ('daas', 'DAAS', 'Coming Soon', 'త్వరలో వస్తోంది', FALSE, 2);
```

11.2 Courses (all under RAAS path)

The following 12 courses must be seeded into the database on initial setup:

#	Title (EN)	Category	Level	Price	Free
1	Bhagavad Gita Essentials	Bhagavad Gita	Beginner	₹799	No
2	Vedic Mantra Chanting	Mantras	Beginner	—	Yes
3	Upanishads: Inner Light	Upanishads	Advanced	₹1,199	No
4	Puja Vidhi and Rituals	Puja & Rituals	Beginner	₹499	No
5	Yoga and Vedic Philosophy	Yoga & Philosophy	Intermediate	₹999	No
6	Ramayana for Beginners	Ramayana	Beginner	—	Yes
7	Shiva Purana Stories	Puranas	Beginner	₹699	No
8	Devi Mahatmyam	Puranas	Intermediate	₹599	No
9	Carnatic Devotional Music	Devotional Music	Intermediate	₹1,499	No
10	Sanskrit for Beginners	Sanskrit	Beginner	₹1,299	No
11	Jyotisha: Vedic Astrology	Jyotisha	Advanced	₹1,899	No
12	Vastu Shastra Basics	Vastu	Beginner	—	Yes

A seed script (`prisma/seed.ts` or `supabase/seed.sql`) must be included.

12. Development Phases

Phase 1 - Core (Hand to Claude Code)

- ☐ Next.js project setup with Tailwind CSS + TypeScript
- ☐ Supabase project setup (auth, database schema, RLS policies)
- ☐ Home page (matching prototype exactly)
- ☐ Explore page with category/level toggle and sort
- ☐ Course detail overlay
- ☐ Sign In / Register / Forgot Password pages
- ☐ My Courses page with progress bars
- ☐ Payment page with UPI QR (Razorpay integration)
- ☐ Payment confirmation screen with IST time logic
- ☐ Email flows via Resend
- ☐ Seed data script
- ☐ Deploy to Vercel + connect Supabase

Phase 2 - Watch Experience

- ☐ Watch page with YouTube embed
- ☐ Lesson sidebar with progress tracking
- ☐ Notes tab (saved to Supabase)
- ☐ Lesson completion marking

Phase 3 - Admin & Polish

- ☐ Admin dashboard (payment confirmation, course management)
- ☐ Google OAuth login
- ☐ Telugu language persistence via localStorage
- ☐ Search functionality
- ☐ SMS reminders (via Twilio or MSG91)

13. Environment Variables Required

```
env
```

```
# Supabase
NEXT_PUBLIC_SUPABASE_URL=
NEXT_PUBLIC_SUPABASE_ANON_KEY=
SUPABASE_SERVICE_ROLE_KEY=

# Razorpay
RAZORPAY_KEY_ID=
RAZORPAY_KEY_SECRET=

# Resend (email)
RESEND_API_KEY=
RESEND_FROM_EMAIL=noreply@babystepsindia.in

# App
NEXT_PUBLIC_APP_URL=https://krishnamargam.babystepsindia.in
ADMIN_EMAIL=admin@babystepsindia.in
```

14. Handover Checklist for Claude Code

When starting development, provide Claude Code with:

1. ☒ This PRD document
2. ☒ The RAAS prototype HTML file (single file, all screens)
3. ☒ Supabase project URL and anon key (create free project at supabase.com)
4. ☒ Razorpay test API keys (create free account at razorpay.com)
5. ☒ Resend API key (create free account at resend.com)
6. ☒ Vercel account connected to GitHub repo

Suggested first prompt to Claude Code:

"Build the **Krishnamargam** spiritual learning platform using Next.js 14, Tailwind CSS, TypeScript, and Supabase. I'm attaching the PRD and the HTML prototype. The platform has learning paths — **RAAS** is the active path in v1, **DAAS** is coming soon. Start with Phase 1. Match the prototype design exactly — colours, layout, and all UI behaviour. Use the database schema in Section 6 of the PRD."
